# Designer Series Fluid Warmers

**V**enthermics<sup>®</sup>

The patient-friendly Designer Series allows you to put aesthetically pleasing warming units right where they are needed, allowing nurses and aides to maximize their time. The lighting inside the warmers softens the patient's room, placing more emphasis on comfort and care.

Safety is a priority with Enthermics Designer Series fluid warmers. Ensure fluids are safely warmed to recommended temperatures through the WarmSafe™ zone heating system. WarmRight® technology provides the right temperature for the right product to meet healthcare guidelines for IV and irrigation fluids.

**WarmSafe Zone Heating:** Heat is evenly balanced throughout the chamber to provide safe fluid warming.

**Convenient:** The hands-free, push button door is designed to make loading easier when carrying an armful of fluids.

**Service:** Our worldwide support team is dedicated to providing quality equipment. We walk with you every step of the way to maximize your return on investment.

**Glass Door:** Energy-efficient coated glass door reflects heat back into the cavity.
