A PERFECT BLEND OF POWER, INNOVATION, AND AFFORDABILITY

HANDS-FREE PRECISION, MAXIMUM EFFICIENCY

Medray's **patented S.T.A.R. Hands-Free Therapy System** is a critical feature of the Medray QuantumX, enabling unattended, precise laser therapy treatments. Designed for efficiency and ease of use, it allows practitioners to **optimize patient flow, improve productivity, and deliver consistent, high-quality care**. The S.T.A.R. Therapy System includes proprietary preset protocols as well as high-end hardware **specially designed for safety and top-notch efficacy**.

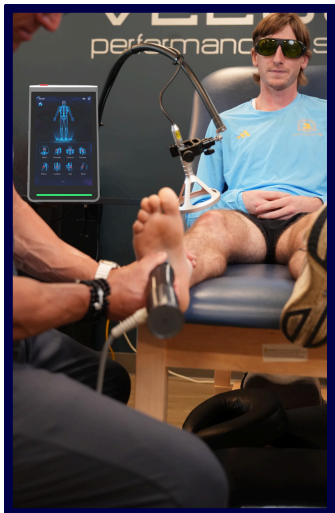

By enabling unattended treatments, **the S.T.A.R. Therapy System maximizes efficiency, increases revenue through cash-pay services, and sets your practice apart with innovative, high-tech solutions.**

TRANSFORM YOUR PRACTICE WITH DUAL THERAPIES: LASER + SHOCKWAVE

Medray Softshock

The combination of laser and shockwave therapies targets different stages of healing. *Shockwave therapy* stimulates blood flow, breaking down scar tissue and encouraging cellular repair, while *laser therapy* promotes tissue regeneration and reduces inflammation at a cellular level. Together, they provide **a powerful one-two punch that addresses both the root cause of pain and promotes long-term healing.**

- **Expand Treatment Offerings:** Treat more conditions in-house without the need to refer out
- **Faster Recovery:** Enhance cellular repair & promote faster healing by combining focused energy from both laser + shockwave therapies
- **Higher Patient Retention:** Offer patients comprehensive care under one roof, keeping them engaged with your practice
- **Increase Revenue:** Dual treatment options allow you to charge more per session or offer package deals that provide more value your patients
- **Return on Investment:** Practices that utilize laser and shockwave therapies have seen up to 17:1 ROI
- **Dual Therapy Device Discount:** Special discounts offered when you purchase a laser and shockwave device through Medray
