

WELLNESS

# ThermFace Massage

## Reduce Jaw Pain
## Release Tension
## Relieve Headaches
## Ease Discomfort

ThermFace Massage is Therabody's first percussive massage device made specifically for the face, jaw and neck—featuring four specialized attachments engineered for your delicate facial muscles. Backed by science to reduce jaw and neck pain, relieve tension and ease facial discomfort,[1] ThermFace Massage combines percussive therapy and built-in heat for effective massage in areas other devices aren't built for.

### Key features

- 5 mm percussive massage, optimized for the face and neck
- 4 specialized attachments: Heat, Cone, Dampener, Wedge
- 3 speed settings and 3 adjustable heat levels
- Ultra compact, lightweight & portable design
- Ergonomic, easy-to-hold grip
- 90-minute battery life
- Built-in device memory and travel lock
- Pair with the Therabody app for expert-designed routines to relieve jaw and neck pain, facial tension and tension headaches

**Heated Percussive**
Soothing relief for face and neck

**Cone**
Targets tension in smaller muscles

**Dampener**
Gentle relief for tender areas
