

Smarter Support. Seamless Control.

Electric Handrails for DST Triple Models

Replace outdated parallel bars with the state-of-the-art DST Triple featuring electric handrails—engineered to boost clinical efficiency, save space, and elevate the standard of rehabilitation care.

Compatible With: DST8000 Triple, DST8000 Triple Pro, and DST Triple Sense

Comfort for Every Patient

Easily adjust handrail height to each patient's needs—improving safety, posture, and confidence during all phases of recovery.

Time-Saving Efficiency

Streamline patient setup and treatment transitions—freeing up valuable time to focus on what matters most: patient care.

Effortless for Therapists

No tools. No delays. Adjust with the touch of a button, allowing real-time transitions between sessions and better clinical flow.

State-of-the-Art Design

Built with 8 premium motors and smart control, this system enhances handrail stability and patient safety.

The DST Triple models deliver comprehensive gait therapy in one compact device- with smooth electric transitions between flat walking, a height-adjustable staircase, and an angle-adjustable slope.

With 25 years experience, this award-winning system has become the heart of modern physiotherapy rooms worldwide.
