

# MedSurg DUO™

Pressure Relief Shoe

Standard Surgical Shoe

DUO™

The MedSurg Duo™ shoe combines two different densities of EVA to provide excellent pressure relief long term. The sole provides 4x better shock absorption than a standard TPR sole. The MedSurg DUO™ shoe is built to last.

**DARCO**®

**EVA Sole**

## DUO™ Features and Benefits

- > Dual Density EVA sole provides excellent pressure relief.
- > The EVA sole is lightweight, more durable, and provides better shock absorption.
- > Adjustable ankle strap with soft ankle pad is softer, meaning more patient comfort.
- > Dual Buckle means strap and pad can be switched left or right
- > The DUO™ is compatible with the PQ - Peg Assist Offloading Insole to form the premier offloading combination on the market.
- > 5 Sizes means reduction in inventory.
- > Duo EVA sole provides up to 40% pressure reduction over a standard post op. shoe.
- > The EVA sole lasts 4x longer than a TPR sole.

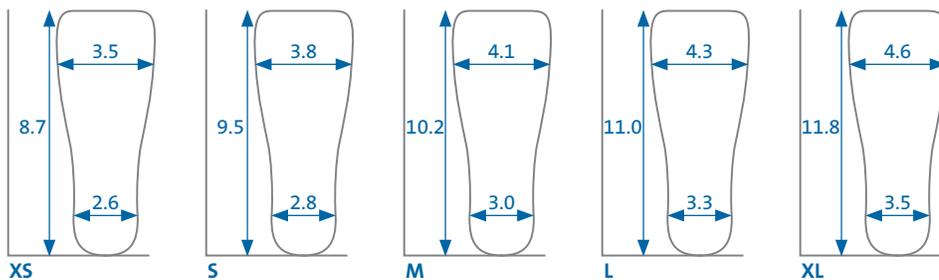

Pair with the PQ Peg Assist to enhance offloading.
