Leukotape® K by Actimove®

Durable, stretchy kinesiology tape, designed to improve motion and help to reduce muscle pain.

DURABLE

- Leukotape K provides effective kinesiology taping that lasts.
- Leukotape K shows **93%** adhesion after a week of usage demonstrating higher adhesion than tested competitors.¹
- Leukotape K is water repellent and stays in place for **up to 9 days**, even after showering or sweating (e.g. exercise or other physical activity).¹

EASY TO APPLY

- Quick and easy to apply, suitable for all kinds of kinesiology taping techniques.
- Easy to cut, resulting in no fraying edges while stretched, and no adhesive residue left on scissors.

* Results of usage on knee.

SKIN FRIENDLY

- Dermatologically tested.
- **9 out of 10** subjects reported no occurrence of skin redness.¹
- Suitable for those sensitive to latex, as this product is not made with natural rubber latex.
- After removal, leaves no residue on skin.

HIGH WEARING COMFORT

- **Over 90%** of subjects find Leukotape K comfortable.¹
- Leukotape K offers the best comfort experience compared to tested competitors.¹
- Made from a breathable material allowing air to circulate and sweat to evaporate.
- Kinesiology tapes, like Leukotape K, enable movement through the very stretchy material that may more than double its length.
- Wave pattern adhesive can support the therapeutic effect.

This product is intended for the use and support in:

- Muscular pain
- Disordered tonicity
- Lymphedema

Kinesiology tapes may

- Help reduce pain
- Improve active range of motion
- Enhance proprioception
- Support lymphatic drainage

¹ Results of the proDERM Institut study detailed below.

- Study site and period: proDERM Institut für Angewandte Dermatologische Forschung GmbH, Schenefeld/Hamburg, Germany. September 28 to October 07, 2020, Report 20.0328-79
- n=32. All subjects finished the study according to protocol.

• Products tested: Leukotape K, Dermoplast active, K-Tape, KT-Tape

- The kinesio tapes were applied once on the first day of the study. The test products were randomly assigned to one of four test areas located on both sides of the lower back as well as on the inner and outer sides of both knees of the subjects.

Leukotape® K by Actimove®

Leukotape® K

by Actimove

Introducing our new 27 1/4 yds rolls of Leukotape K by Actimove, available in a redesigned dispenser box in colors light blue, black and beige.

Complementing our 5 1/2 yds rolls for on-the-go treatments, this new size offers enhanced value, convenience, and efficiency for busy Physiotherapists in their practice.

**New Sizes Available
– Spring 2026!**

With one roll now equaling the length of five smaller ones, enjoy:

-  Better stock management
-  Fewer replacements
-  Less waste
-  Better value

REF	Measurements	Color	UOM / Pack
6507805	2" x 27.25 YDS	 Lt Blue	1 roll/box
6507806	2" x 27.25 YDS	 Black	
6507807	2" x 27.25 YDS	 Beige	

Also available in a convenient 5 1/2-yard roll — Smaller Size, Same Performance!
