

Premium European
Knee Bracing

Push® med Knee Brace

Optimal medial / lateral stabilization, less bulk

- Unique leaf spring hinges follow natural non-axial flexion and extension of the knee
- Offers substantial medial / lateral support
- Allows brace to be worn under clothing due to low profile
- Prevents slippage with anatomical fit and internal silicone strips

L-code application in process

“The [med Knee Brace] fit is consistent with instructions for measurements. Very streamlined and can fit under ski pants. Does not migrate down leg and provides a fair amount of lateral support without significantly limiting flexion or extension.”

— Barb (Therapist)

Sizing: All Push Knee Braces

SIZE	INCHES	CENTIMETERS
1	11 - 12 1/4	28 - 31
2	12 1/4 - 13 1/8	31 - 34

Push® med Patella Brace

Comfortable, precise patella tendon pressure

- Distributes pressure to patellar tendon with semirigid strap, preventing blood flow constriction
- Delivers pressure with skin-compatible, anatomically shaped viscoelastic polymer pad
- Prevents distal slippage with anatomical fit and viscoelastic pad

L-code identifier not applicable

Sizing: One size

- Fits 11 - 17 ¾" (28-45cm) circumference
- Measure below knee at narrowest part with knee flexed

Premium Comfort & Care

Push braces are designed in consultation with medical experts to be anatomically correct and provide optimal support with minimal impact on daily activities. They are made in Europe with premium quality, machine-washable materials for comfort and durability, and have a 90-day guarantee. Most Push products are made of Sympress™, a soft, moisture-wicking microfiber.

As the exclusive US distributor of Push braces, BraceLab is dedicated to customer satisfaction. We offer exceptional customer service with rapid response and trained support specialists 9am - 5pm EST, Monday - Friday.

Ordering Push® Braces

- Order via website or phone with credit card
- Ask us about our volume discounts, or how to establish purchase order/billing account

To help your patients order directly:

- Print them a copy of the [Patient Information Sheet](#) from the relevant product webpage
- Help them determine the correct size
- Let them know they must file their own insurance; BraceLab is unable to assist
