

ORTHOPEDICS

THERMOSKIN ARTHRITIS GLOVES

Thermoskin provides effective treatment and pain relief for sports injuries, arthritis, repetitive strain injuries, and many other conditions. This product combines compression, support, and naturally generated body heat for maximum comfort. Offered in a range of sizes and sold in pairs.

Key Features:

- Provides light but firm compression to counteract tissue swelling
- Clinically proven to increase skin and muscle temperature
- Promotion of increased blood flow facilitates enhanced recovery
- Sizing based on the circumference around knuckles
