

Feather CUSHION Collection

Three coordinating cushions to make life more comfortable.

Our wheelchairs look so good - we decided they needed cushions to match. Feather cushions are **medium-high density** foam with a **water-resistant** and **breathable cover**. They also have a **non-slip bottom** and a **carry handle** for hassle-free use. The three coordinating piping colors match the full line of Feather manual and power wheelchairs. A great add-on when selling a Feather, (or any brand), manual or power wheelchair.

FEATURES:

- Water resistant & breathable cover.
- No-slip design with carry handle.
- Medium-high density foam for comfort.
