

Aspen Hinged Wrist

Superior Wrist Support Without Compromising Mobility

Universal

645011

The Aspen Hinged Wrist is the ideal product for patients suffering from a wrist injury. The universal design allows for either right or left wrist application and the easy closure system makes it easy to don and doff. The aluminum frame can be customized to the patient's forearm, wrist and hand for a secure fit. The Aspen Hinged Wrist can be applied in either flexion or extension control to appropriately treat multiple conditions.

CODE L3915/L3916 APPROVED

Locking Strap
Support strap to limit lateral movement.
