

CANDO[®] ultrasound gel

Key Features

- Works with a wide range of frequencies
- Use with both diagnostic and therapeutic ultrasound devices
- Effective in enhancing conductivity while reducing overall static
- Medium viscosity prevents the gel from running for easy application
- Non-greasy and non-staining gel is easy to apply and clean up
- Water soluble formula is safe to use with most equipment and instruments
- Ultrasound gel is fragrance-free, salt and alcohol-free, paraben-free, and latex-free
- Available in a 8.5 oz gel bottle and a 5 liter container with a refillable bottle

50-5600-1	8.5 oz
50-5600-12	8.5 oz (case of 12)
50-5601-1	5 liter
50-5601-4	5 liter (case of 4)

8.5 oz gel bottle

5 liter container with refillable bottle
