

# Regulated Drinking Cup

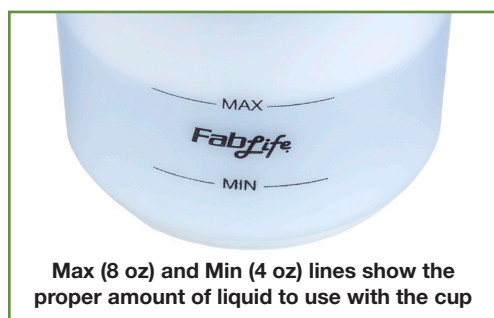

60-1045  
5 cc (0.17 oz)

60-1046  
10 cc (0.34 oz)

- Regulated drinking cup for dysphagia and other swallowing disorders
- Lid dispenses a fixed amount of liquid, 5 cc (0.17 oz) or 10 cc (0.34 oz), with a single drinking motion. Once dispensed, liquid stays in user's mouth until swallowed
- 8-ounce (236 cc) drinking cup is available in two different color-coded lid and handle styles to match your needs:
  - The blue lid releases a smaller 5 cc (0.17 oz) amount of liquid per pour
  - The brown lid provides a larger 10 cc (0.34 oz) amount of liquid per pour
- Prevents over-delivery of liquid with its risk of aspiration and choking
- Delivers the right amount of liquid in a safe, measured intake, 5 cc (0.17 oz) or 10 cc (0.34 oz), that is vital for the management of swallowing disorders
- Dishwasher and microwave safe

## Regulated Drinking Cup

Blue Lid, 5 cc (0.17 oz) Pour Volume	60-1045
Brown Lid, 10cc (0.34 oz) Pour Volume	60-1046
