SANITIZABLE AND DISHWASHER-SAFE

2 SHARPNESS LEVELS

HIGH QUALITY MATERIALS

SAFE FOR ALL AGES AND ABILITIES

Totchop was born after a choking scare led our founder to reimagine how families prepare meals. What started as solutions for parents and kids are now trusted as adaptive kitchen tools suited for therapeutic and rehabilitation settings across the country. Our rocker knives and self-centering, nonslip cutting bowl enable one-handed cutting, promoting independence, motor planning, and safety. Built in the USA and designed for easy cleaning and durability, our sets support a wide range of users from pediatric therapy to adult rehab and assisted living. Everyone deserves the ability to prepare meals independently, and our tools help make it possible.
