- Cervical contour supports natural curve of the neck

Therapeutica
by **Core Products**
INTERNATIONAL, INC.

ON YOUR BACK

Place the pillow on the bed with the wedge pointing toward the feet. Lie down on the pillow with the wedge supporting the upper back, the cervical contour supporting the neck, and the head resting comfortably in the contoured head rest.

ON YOUR SIDE

Simply flip the pillow over, so that the wedge is at the top of the pillow facing the headboard. Place shoulder against the contoured area of the pillow.

WHY CHOOSE THE THERAPEUTICA PILLOW?

The Therapeutica Travel Pillow is designed to offer the same features as our full-size Therapeutica sleeping pillow, but in a convenient, travel size. Created by an ergonomic designer, along with a doctor of chiropractic, the travel pillow is best for those who sleep on their back. However, it can be flipped over to accommodate side sleeping. This nonallergenic, molded foam pillow offers comfortable, yet firm, support to help restore the natural curve of the neck.

NECK AND SHOULDER SUPPORT

The unique design includes three distinct areas to help reduce neck pain and stiffness. The gentle incline of the wedge extension supports the upper spine, the firm cervical contour supports the neck, and the contoured head rest with airflow channels helps keep the head level.

RESILIENT MOLDED FOAM

Made with a unique molded foam that is nontoxic, nonallergenic, and highly resilient, the Therapeutica Sleeping Pillow provides a firm foundation while remaining soft to the touch. Supportive and firm, this pillow provides optimal support for your head and neck. Unlike memory foam, this high quality, resilient molded foam will maintain its shape for years of use and support. This pillow includes a luxurious zip-open quilted cover that is soft and comfortable against the skin, and can be easily removed for washing.
