

dynamometers and inclinometers

Lafayette Manual Muscle Tester (MMT)

- comes with 3 pads
- measures peak force and time to achieve it, total test time, time within selectable ranges and average force
- optional data storage for up to 150 tests
- 300 lb (136 kg) capacity
- optional data transfer software allows bluetooth communication between MMT and computer
- rechargeable battery with auto shut-off
- easy-to-read graphical LCD display reads in lb, kg, and newtons

| | | |
|----------|------------------------|----------|
| 12-0380 | Lafayette MMT | 1,200.00 |
| 12-0380S | Software/wireless data | 300.00 |

Acumar dual inclinometer

- large LCD display
- store 6 tests with max, min and average values
- reads from 0° ± 185°
- IR transmits to optional computer interface (D)
- software calculates statistical information (average, maximum and variance), creates graphs and reports

| | | | |
|-------------|---------|------------------------------|--------|
| B, C | 12-1061 | complete set | 950.00 |
| A | 12-1062 | single inclinometer | 300.00 |
| B | 12-1063 | dual inclinometer with cable | 600.00 |
| C | 12-1064 | ruler | 50.00 |
| D | 12-1065 | data capture interface | 500.00 |

DynX® dynamometer

- for grip testing and grip therapy
- perform maximum, endurance and rapid exchange tests
- perform fixed effort or stepped effort grip therapy
- store data and calculate statistics (average, standard deviation and coefficient of variation)
- connect USB wire to data port to download archived data and statistics to a computer
- use grip adjuster to vary grip size
- 9V battery included
- 200 lb (91 kg) capacity

| | | |
|---------|-------------------|--------|
| 12-0455 | DynX® dynamometer | 400.00 |
|---------|-------------------|--------|

MicroFET HandGRIP

- LCD display
- for routine grip strength screening and initial/ongoing evaluations
- durable, lightweight body
- grip tests: maximum test, 5-position test, rapid exchange test, and hand fatigue test

| | | |
|------------|--|----------|
| 12-0277W | MF HandGRIP, wireless | 355.00 |
| 12-0277WC | MF HandGRIP, with clinical software | 855.00 |
| 12-0277WD | MF HandGRIP, with data collection software | 855.00 |
| 12-0277WCD | MF HandGRIP, with both software packages | 1,355.00 |

Jamar Plus®

digital dynamometer

- LCD display shows isometric grip force in lb or kg
- perform maximum grip and rapid exchange tests
- calculate average, standard deviation and coefficient of variation (CV)
- collect up to 5 trials for both hands
- 2 AAA batteries included
- 200 lb (90 kg) capacity

| | | |
|---------|--------------------------|--------|
| 12-0604 | Jamar® Plus+ dynamometer | 365.00 |
|---------|--------------------------|--------|

digital pinch gauge

- LCD display shows isometric grip force in lb or kg
- perform tip, key and palmar tests
- store 99 readings
- 3V battery included
- 50 lb (23 kg) capacity

| | | |
|---------|-------------------------------|--------|
| 12-0607 | Jamar® Plus+ electronic pinch | 252.50 |
| 12-0475 | Baseline® electronic pinch | 200.00 |
