

exercise bikes, ellipticals and treadmills

T611 treadmill

- powerful 3.0 hp DC motor
- MyFlex™ deck cushioning system automatically adjusts based on user weight
- CardioAdvisor™ displays heart rate information and goals
- 20" x 58" running surface
- telemetry heart rate
- entertainment bracket compatible

T652 treadmill

- 5.0 hp ECO-POWR™ motor uses up to 32% less energy without compromising power
- CardioAdvisor™ displays heart rate information and goals
- 22" x 61" running surface
- contact and telemetry heart rate
- entertainment bracket compatible

C521u cycle

- oversized seat for proper knee alignment
- self-generating design requires no outside power to operate
- low-profile for easy on/off
- optional seat adapter allows you to attach your own bicycle seat
- telemetry heart rate
- entertainment bracket compatible

C521m recumbent cycle

- breathable, reclining mesh seat back with lumbar pouch for hot/cold packs
- bi-directional resistance
- adjustable pedal crank allows for range of motion adjustments
- step-through design allows for safe and easy on/off access
- simple adjustment levers lock into place quickly

10-6080 T611 treadmill 3,000.00

10-6081 T652 treadmill 7,000.00

10-6082 C521u cycle 1,800.00

10-6083 C521m cycle 3,900.00

E825 elliptical

- electronically adjustable stride range of 17" to 26"
- fingertip buttons for resistance and stride length
- CardioAdvisor™ displays heart rate information and goals
- MyFlex™ pedal cushions
- contact and telemetry heart rate
- entertainment bracket compatible

E862 elliptical

- offers the industry's shortest and longest stride, spanning 17"-29" in 1" intervals
- fingertip buttons for resistance and stride length changes
- small footprint
- low step-up height
- contact and telemetry heart rate; 3-speed fan
- optional: CardioActive Entertainment Station™, iPod Connectivity

S7100 stepper

- multiple hand grasp positions
- adjustable crank to gradually increase range-of-motion radius
- silent poly-v belt drive system for smooth motion
- CardioAdvisor™ displays heart rate information and goals
- self-generating design requires no outside power to operate
- self-leveling non-skid foot pedals

UB521m UBE

- low start-up resistance
- belt drive for smooth and quiet operation
- body position angle adjusts 73°
- display console rotates 85° for easy viewing
- adjustable crank provides ability to gradually increase range-of-motion radius
- telemetry heart rate
- adjustable seat

10-6084 E825 elliptical 4,300.00

10-6085 E852 elliptical 7,000.00

10-6086 S7100 stepper 4,400.00

10-6088 UB521m UBE 5,150.00
